

Cutters

To help you make the most of your ITL Code Machine(s), we offer a range of cutters to suit a range of needs.

CW1012 Symmetric Cutters

MDD1054.....High Speed Steel

MDD1027.....Carbide

Assymetric Cutters (for cuts close to the shoulder)

MDD1025.....High Speed Steel

MDD1113.....Carbide

Carbide cutters are ultra hardwearing. We recommended them for tougher blanks such as silver and nickel.

Misc. Cutters

MDD1069.....Slotted Cutter (for Safe Deposit Box Keys)

MDD1068.....Fine-Tooth Cutter (for Best/Kaba Peaks - provides super precision)
